

Assessor's Report
May 20, 2026

No transfers have been received to date for March, April or May.

I received the final equalization rate determination by the State for 2026 and they finalized it at 100%

The transition for the State taking over the STAR program has been a project, I received and reviewed the first 3 STAR reports and made adjustments to those parcels on the reports.

I have been going over the first part of the years building permits and updating inventory as needed.

Grievance Day is Wednesday, May 27th from 4-8pm. Appointments are available.
